

## 10" Forestry Tree Shears

for Skid Steer Loaders

**Photo Above:** Dual Grapples allow operators to place in trees in selected piles. Optional accumulator arms are available.

### The Little King of the Forest!

- The **Dymax 10" Forestry Timberwolf Tree Shears** for skid steer loaders feature solid steel shearing arms and pack a powerful punch bringing most adversaries to the ground.
- **Dymax 10" Forestry Timberwolf Tree Shears** feature dual grapple arms which allow operators to hold the trees and place into collective piles. Optional accumulator arms are available.
- The **Dymax 10" Forestry Timberwolf Tree Shear** is designed for machines with a minimum of 725kg of operating capacity, minimum flow rate of 56 lpm.
- Shearing cylinder is rated at 20700 kPa and optimum results will be obtained near those levels. Do not exceed 22080 kPa.
- Shear blade is comprised of 19.05mm Hardox 400 high tensile steel and is easily replaced when worn.
- All units are equipped with universal mount skid steer coupler hooks to work with most new model skid steer loaders.
