

## VORTEX BRUSHCUTTER for skid steer loaders

**Dymax Vortex Brushcutter “draws into its center all that surrounds it and destroys it!”**

The Dymax Vortex Brushcutter is a workhorse. With more than 750 lbs. in flywheel the Dymax Vortex chops through brush and small trees in seconds. The Dymax Vortex features an open end deck design which cuts material before it encounters the deck. This allows for faster cleanout and recycle times while driving.

The Dymax Vortex is available with a standard flow, medium flow or high flow motor system. Each model is carefully matched to its machine carrier and flow rates allowing you to maximize cutting efficiency.

SF = Standard Flow - 20-25 gpm, (76-95 lpm)

MF = Medium Flow - 26-33 gpm, (98-125 lpm)

HF = High Flow - 34-41 gpm, (128-155 lpm)

The Dymax Vortex is available in both 70 and 80 inch wide cutting width models. The 80 inch model is ideally suited for larger high flow track type skid steer loaders. It gives operators the ability to cut everything in its path and eliminates the need for making a second pass.

### Specifications and Hydraulic Functions

Model	Hydraulic
70.SF	Standard Flow Hydraulics
70.MF	Medium Flow Hydraulics
80.MF	Medium Flow Hydraulics
70.HF	Hi-Flow Hydraulics
80.HF	Hi-Flow Hydraulics

Model	Cutting Width in. (mm)	Shipping Dimensions L x W x H in. (mm)	Max Cut Size in. (mm)	Flow Ratings GPM (LPM)	Pressure PSI (bar)	Weight lb (kg)
70.SF	70 (1828)	78 x 77 x 25 (1982 x 1956 x 635)	6 (152)	21-25 (76-95)	3200 (220)	1,800 (816)
70.MF	70 (1828)	78 x 77 x 25 (1982 x 1956 x 635)	6 (152)	26-33 (98-125)	3200 (220)	1,800 (816)
70.HF	70 (1828)	78 x 77 x 25 (1982 x 1956 x 635)	6 (152)	34-41 (128-155)	3200 (220)	1,800 (816)
80.MF	80 (2032)	88 x 87 x 25 (2235 x 2210 x 635)	6 (152)	26-33 (98-125)	3200 (220)	2,100 (952)
80.HF	80 (2032)	88 x 87 x 25 (2235 x 2210 x 635)	6 (152)	34-41 (128-155)	3200 (220)	2,100 (952)

## VORTEX POWER

### A SWIRLING VORTEX OF TREE CUTTING FURY

The **Dymax Vortex** features a heavy duty flywheel assembly that is machine balanced, delivering smooth operating performance. Ideal for larger skid steer loaders and multi-terrain loaders, this work tool is a workhorse. With over 750 lbs. of 900 rpm flywheel at your command, the **Vortex** is unrelenting on brush and trees. This is not your neighborhood mower. This is the **Vortex!**

## VORTEX CUTTING BLADES

### LONG LASTING TOUGHNESS

Hardox 400 reversible blades feature machined knife edges and can easily be replaced. Blades are mounted between the top and bottom disk on the **Vortex** disk assembly.

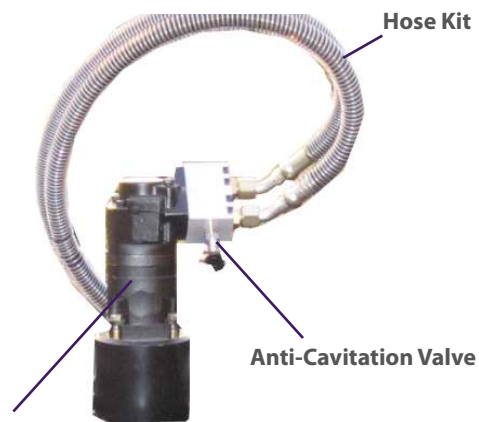

## HYDRAULICS

### A MOTOR TO SUIT YOUR FLOW

The **Dymax Vortex** is available in 3 hydraulic configurations matched to the machine's hydraulic flows.

The standard flow model caters to machines with flow ratings between 20-25GPM. A medium flow model matches machines with 26-33GPM and a high flow model is perfect for machines with 34GPM to 41GPM.

Each motor features an anti-cavitation valve that ensures long service life.

Heavy Duty Motor

3 flow configurations depending on your machine
